ERASMUS+ and Internationalisation

Our school firmly promotes **internationalisation** pathways to broaden the educational horizons of students and staff. This page presents the vision, the activities and the opportunities that the international dimension offers our educational community, helping to shape curious, competent citizens who are ready to move within a global context.

What is ERASMUS+

Erasmus+ for schools is the European Union programme that supports training, mobility and collaboration between European schools. Through exchanges, professional development courses and shared projects, it offers students and staff opportunities for professional and cultural growth in an international setting.

Joining the **Erasmus+** network is important because it allows our pupils to develop language, social and intercultural skills, broadening their horizons and preparing them for informed European citizenship. At the same time, it enables teachers and school staff to keep their skills up to date, innovate their teaching practices and build lasting partnerships with other European schools, enriching the whole educational community.

USR Piemonte Consortium – Erasmus+

As a school belonging to the **USR Piemonte Consortium** (SCH Erasmus KA1 ACCREDITATION 2025 - IT02-KA121-SCH-000320300) for the **Erasmus+** programme, we take part in exchange, training and cooperation projects with European partners, promoting innovative teaching that is open to the world.

Thanks to our membership of the **USR Consortium**, our school has had the opportunity to take part in several **Erasmus+ mobilities** for teachers. These were **training courses abroad**, designed to strengthen language, methodological and digital skills and to bring innovative teaching practices into our school. On this page we present the activities carried out, our teachers' training experiences and the added value that the international dimension brings to the whole educational community.

From Multicultural to Intercultural Classrooms – Erasmus+ Course – Cyprus (2025)

2024-1-IT02-KA121-SCH-000208340

The Erasmus+ mobility in Paphos (Cyprus) allowed a group of six teachers (one from our school) to take part in the course **"From Multicultural to Intercultural Classrooms"**, dedicated to inclusion and the management of intercultural classes. Participants explored the psychology of young migrants, the difficulties linked to migration processes and the importance of building stable educational relationships. The course also showed how innovative digital tools can help overcome the cultural gap and personalise learning. A

significant professional and human experience, which has enriched our school and strengthened its commitment to open, inclusive and international education.

eTwinning Training Event – Tuesday 24 March 2026

For teachers of schools of every level in Piedmont.

As part of its actions to promote the European dimension of education and the creation of distance-learning projects, USR Piemonte offers free training initiatives, both on the use of the ESEP platform and on eTwinning project work. The meetings aim to offer strategies, tools and practical ideas to support schools, and are open to all interested teachers and school heads.

The information event will take place on **Tuesday 24 March 2026**.

Documents: official letter (ref. 0005431, 03-03-2026) and webinar flyer (24 March 2026).

eTwinning Training Event – 27 November 2025

“Twenty years with eTwinning: eduCare for tomorrow with life skills”

Information is available in the USR Piemonte document.
